Harvey,
We have a draft public viewer ready. We just need the regions/HQ to decide if they
want to release it. We have services built that could feed a public facing geoplatform
site if needed.

Sure, copying our national geospatial support team on this. Who are you working
with in Region 8? Also copying Region 8 GIS contacts.

Do you have an idea of how you want to present the data?

Harvey and Kim,

We're getting ready to go live with the spill web site for the Gold King Mine spill. On the call with the regions, the need for a way to map out the water sample data became pretty clear.

Can we engage your team to see what's possible with accomplishing this?
